To assist your community in maintaining the Flood Insurance Rate Map (FIRM), we have summarized below the previous Letter of Map Change (LOMC) actions (i.e., Letters of Map Revision (LOMRs) and Letters of Map Amendment (LOMAs)) that will be affected by the revised FIRM that will become effective on February 16, 2006.

1. LOMRs and LOMAs Incorporated

The LOMRs and LOMAs listed below have been incorporated into and are reflected on the final FIRM. However, until the revised FIRM becomes effective, the LOMRs and LOMAs will remain in effect.

<u>LOMC</u>	<u>Case No.</u>	<u>Effective Date</u>	<u>Project Identifier</u>	<u>New Panel</u>	<u>New Zone</u>
None					

2. LOMRs and LOMAs Not Incorporated

The LOMRs and LOMAs listed below have not been reflected on the final FIRM. This is either due to scale limitations of the FIRM, or because the LOMR or LOMA issued determined that the lots or structures involved are out of the Special Flood Hazard Area, as shown on the FIRM. These LOMRs and LOMAs will be revalidated free of charge the day after the revised map panels become effective.

3. LOMRs and LOMAs Superseded

The LOMRs and LOMAs listed below have not been reflected on the final FIRM because they have been superseded by new detailed flooding data or sufficient information could not be located on which to make a determination. The reason each has been superseded is noted below. When the revised FIRM becomes effective, these LOMRs and LOMAs will no longer be in force.

<u>LOMC</u>	<u>Case No.</u>	<u>Effective Date</u>	<u>Project Identifier</u>	<u>Reason Superseded</u>
LOMR	95-04-049P	February 22, 1995	Rockfish Creek- Blanchard Property	1, 2
LOMR	94-04-123P	September 23, 1994	Cape Fear River- Murphey Development	1, 2

4. LOMRs and LOMAs to be Re-determined

The LOMCs in Category 2 of this form are revalidated through a single letter that reaffirms the validity of a previously issued LOMC. Therefore, LOMCs issued for multiple lots or structures where the determination for one or more of the lots or structures have changed cannot be revalidated through this administrative process. However, we will review the data which were previously submitted as part of the original LOMR or LOMA request listed below and issue a new determination for the subject properties after the FIRM effective date.

<u>LOMC</u>	<u>Case No.</u>	<u>Effective Date</u>	<u>Project Identifier</u>	<u>New Panel</u>	<u>New Zone</u>
LOMA	03-04-3672A	March 3, 2003	361 Dark Branch Road	3462	AE / X

3. LOMRs and LOMAs Superseded

The LOMRs and LOMAs listed below have not been reflected on the final FIRM because they have been superseded by new detailed flooding data or sufficient information could not be located on which to make a determination. The reason each has been superseded is noted below. When the revised FIRM becomes effective, these LOMRs and LOMAs will no longer be in force.

4. LOMRs and LOMAs to be Re-determined

The LOMCs in Category 2 of this form are revalidated through a single letter that reaffirms the validity of a previously issued LOMC. Therefore, LOMCs issued for multiple lots or structures where the determination for one or more of the lots or structures have changed cannot be revalidated through this administrative process. However, we will review the data which were previously submitted as part of the original LOMR or LOMA request listed below and issue a new determination for the subject properties after the FIRM effective date.
